*******TEACHERS DAY*******

Teacher's Day is celebrated on September 5 every year. This date was chosen to commemorate the birth anniversary of Dr Sarvepalli Radhakrishnan, a renowned philosopher, scholar, and the second President of India.

Teacher's Day provides a platform for society to acknowledge and appreciate the hard work, dedication, and contributions of teachers. It reminds us of the pivotal role teachers play in shaping the minds and futures of students.

Celebrating Teacher's Day serves as an inspiration for students to value education and the guidance they receive from their teachers. It encourages students to strive for excellence and develop a sense of respect for their educators. To honour teachers Air force school, Srinagar celebrated teachers day on 5 September with great enthusiasm.

*****Hindi Diwas*****

September 14 is a day when Hindi Diwas is celebrated across the country. This day holds special significance as it marks the adaptation of Hindi as one of the official languages by the Constituent Assembly in the year 1949. On this day, the Constituent Assembly accepted Hindi written in Devanagari script as the official language of India

Hindi Diwas is important as it symbolises the rich linguistic diversity of India and promotes the use and preservation of the Hindi language. To emphasize the

importance of Hindi language Air force school, Srinagar organised many programs like Hindi calligraphy, Hindi essay writing competition, colouring, and tracing Swar and vyanjan activity with passion and ardour to celebrate Hindi Diwas

*****TALENT HUNT*****

Talent hunt is an event in which the participants perform the art of singing, dancing and other activities to showcase their skills. To give wings to the children's imagination, to give purpose to their dreams and to bring out their hidden talent, a talent hunt competition was organised by Air force school Srinagar on 23/09/23. The students participated enthusiastically in this Event. Students exhibited their talents well in various activities like solo, duet and group singing and dancing.

*****THREE LEGGED RACE*****

The three-legged race is a fun and unique activity that has many benefits for both physical and mental health. It is a thrilling and hilarious event where two participants are joined together by their legs, with one leg tied to the other person's leg. The objective is to coordinate their movements and race towards the finish line without falling or stumbling.

Three-legged race promotes trust, cooperation, and communication among participants. It fosters a sense of unity and togetherness as individuals work towards a common goal. To create sense of unity and integrity among children Air force school Srinagar organised three legged race on 22 September for pre-primary .

*****HINDI RHYME COMPETITION*****

Rhymes enjoy an undisputed importance in the life of a kindergartener. Teaching of rhymes not only develops speaking skills but also helps express their feelings through facial expression and gestures. Understanding rhymes makes a child sensitive and reciting the same makes them creative. A strong performance is one in which the meaning of the rhyme is powerfully and clearly conveyed to the audience. This was displayed beautifully by the students of Air force school Srinagar , when they participated in Hindi Rhyme Competition on 27 September 2023.

The students made all the characters of each rhyme come alive. They enthralled their teachers and friends with their memory skills while reciting rhymes. It was an excellent opportunity for them to gain confidence through stage exposure.

*****POSTER MAKING COMPETITION*****

Air force school Srinagar organised poster making competition on energy conservation on 30 September 2023. The purpose of this competition was to help children to know about the importance of conservation of energy and help them to understand that The rise of global warming has been attributed to increased energy consumption. Through energy conservation, we can reduce our carbon footprint and minimize the effects of global warming before it gets even worse. The fewer greenhouse gas emissions in the atmosphere, the better chance we must reduce climate change. Energy conservation helps us do that by decreasing our dependence on fossil fuels. Conserving energy also helps individuals save money. Lower energy costs mean more money in one's pocket. The less you must pay for electricity and gasoline, the less debt you will have. Although increasing energy efficiency is crucial because it reduces environmental pollution without compromising comfort levels or adding costs, conservation remains highly effective when it comes to preventing climate change.
